ISAP (International Society for Asphalt Pavement) is one of the most prestigious international organization to promote asphalt pavement technologies. The Technical Committee on Asphalt Pavement and Environments (APE) is one of the TCs in ISAP and hosts the 5th ISAP APE Symposium 2019, together with the University of Padua (Italy).

The APE Symposium has already been organized four times, in: Zurich, Switzerland (2008); Fortaleza, Brazil (2012); Sun City, South Africa (2015); Tokyo, Japan (2017). The 5th Symposium will be held in Padua, Italy.

The Symposium 2019 will provide an excellent chance to share and disseminate research experiences concerning materials and technologies for asphalt pavements, conceived with sustainability purposes and environmental compatibility.

5th International Symposium on Asphalt Pavements & Environment (APE)

5th ISAP TC APE Symposium
1st Announcement
Call for Papers

Topics are focused on the environmental aspects
of asphalt pavements and are related, but not limited, to:

1. Sustainable pavement materials
2. Pavement structures
3. Test methods and performance
4. Hot, warm or cold recycling
5. Maintenance and management methods
6. Environmentally friendly technologies
7. Urban heat island mitigation
8. Energy harvesting
9. Life cycle assessment

Venue

University of Padua, Palazzo del Bo, via VIII Febbraio 2,
Padua, Italy

Keydates

01.09.2018	Abstract submission
15.09.2018	Abstract notification
15.11.2018	Paper submission
15.03.2019	Paper notification
30.04.2019	Paper acceptance
30.04.2019	Early registration
01.06.2019	Regular registration

Contributions should be submitted to:
isap2019@dicea.unipd.it

Language

The official language of the Symposium is English
