

Job opportunities

Job opportunities for alumni could be found in all sectors where actions for territorial transition and adaptation to climate change should be implemented, in particular in territorial organizations responsible for the creation of sustainable territories (territorial communities, enterprises, non-state actors and civil society organizations, local governments), the central government and international organizations.

University Partners

Università degli Studi di Padova (Italy)

KU Leuven (Belgium)

Université Paris 1 Panthéon Sorbonne (France)

University of Johannesburg (South Africa)

Universidade Católica Dom Bosco (Brazil)

Université OUAGA I (Burkina Faso)

Professional Partners

Via Via Tourism Academy (Belgium)

The European Association for local Democracy - ALDA (France/Italy)

SEBRAE/MS (Brazil)

SteDe - CCD aims to create experts in the area of sustainable territorial development in the context of climate change. More concretely it trains professionals to be able to help organizations acting in the territory (enterprises, local communities, civil society organizations, public administrations) to draft sustainable development policies for adaptation to climate change combining economic, social, environmental, international and intercultural dimension.
