

The seminar is part of the activities of the project “Mapping the Interiors of Famagusta Venetian Fortifications”, the first collaborative event between NTU and UNIPD over the next two years. The collaboration focuses on digital surveying, BIM modelling, and the study of architectural and art history. The initiative will involve, among others, students and researchers from both departments: the School of Art, Design and Media, and the Department of Civil, Environmental and Architectural Engineering.

# Famagusta: art, architecture, cultural heritage digital modeling

Visiting Professor (2025), “Mapping the Interiors of Famagusta Venetian Fortifications” – Shaping a World-Class University Initiative
